

# Wild in Wales

Every year we're joining *Simon Pavey* (multiple Dakar finisher) and his team of excellent instructors in Wales for a two-day training followed by an all-road tour through Wales (ORS-only is also possible).

## **OFF ROAD SKILLS (ORS) – off road training course:**

Simon and his team have developed their own *unique* programme for each level (four) of training that has been constantly refined to provide the best learning experience and most fun.

**Off Road Skills** provides off-road training unlike any other training facility. It's one of the original and best adventure bike schools in the world. Their acclaimed off-road courses have stood out for more over a decade for one simple reason – they offer a structured training program that is designed to instill the basic techniques for every aspect of off road riding.

The Off Road Skills training programmes aren't about being pushed in at the deep end, they are about building technique and confidence hand in hand.

Off Road Skills is based out of one of the UK's finest and most exclusive off road facilities; the spectacular 4000-acre Walters Arena in **Brecon Beacon**, South Wales. Unique not only in its vast size, but also the variety of terrain and fantastic all weather abilities, Walters Arena is another reason that Off Road Skills stands out.

#### Training Levels:

Nowadays ORS has even **4 different levels**. Level 1, 2-foundation, 2 and 3. Level 2-foundation is new and it's specifically designed for riders who have completed Level One and wish to progress to the skills taught on Level Two, but perhaps didn't have the opportunity to practice off-road riding between level 1 and 2.

**“ AFTER TWO DAYS OF INTENSIVE TRAINING, THIS IS THE PERFECT WAY TO SEE WALES FROM A MOTORBIKE-PERSPECTIVE AND PRACTISE ALL YOU HAVE LEARNED!”**

## NADJA M. / THE NETHERLANDS

**WILD IN WALES - ALLROAD TOUR:**

For those who want to bring the learned into practice immediately can join us on the *allroad* tour “*Wild in Wales*” (also sometimes dubbed as Wet in Wales, it's not always sunshine you know ;).

The tour promises a good mix of curvy tarmac, fine gravel roads, green lanes and more challenging (forest) tracks. All guided by Simon Pavey and his instructors, together with *Explore360°* guides.

The tour is suitable for all levels of experience, especially after the training. We will split up into small groups (7-8 riders) and each group rides again *on its own level* (like during the training). The beginners group will ride more single lane tarmac combined with easier gravel roads and fire-roads. Level 2 more ruts, rocky hill-climbs, grass etc. Level 3: be prepared to sweat :)

The tour leads us through areas which special permits are needed for, and you won't find them on any tourist map. We'll stay in comfortable hotels and ride again on those trustworthy BMW GS'.

Having a support vehicle to bring our luggage, a spare-bike and refreshments during the day makes the riding only more fun!

### Accommodation during tour:

Of course, the *quality* of the hotels matches that of the riding, with our accommodation provided in gorgeous settings in buildings with walls that could tell a thousand tales. We'll stay in good accommodations that transcend that typical Welsh atmosphere.

### Temperature/weather conditions.

The temperature of course always varies. It can be anything between 10° and 25° Celsius. Because of the variety of the terrain that we encounter, it might be cold also during the day, especially when it's raining and windy.

*Be prepared* for bad weather conditions. A Gore-Tex MC-suit, or a good rain-suit is a must on your "to bring" list. But normally May is one of the best periods of the year to visit Wales.

- ATM. There are ATMs available in every reasonable town where you can withdraw money (£).
